

Standards & Practice Committee

This would be a position that could be mentored and grown as the desire of the member grows and wants to be involved. We need assistance in this area to disseminate information on standards and practice for daily practice for a variety of settings, through our website, e-mails and calls. The committee chair would be on involved in the Impaired Providers Committee who is overseen by the KPTA Vice President. Someone practicing in two or more types of settings would be the most at home in this position, but we are not limiting the type of practice he/she is from. Please contact Camille Snyder at csnyder100@cox.net if you are interested. We have recently updated our Policies and Procedures to assist with a smooth transition into the KPTA Board of Directors, with whom you would be apart. Please insure that your KPTA/APTA membership is up to date, and we certainly look forward to talking with you soon.
