

Lorna is a Physical Therapist Assistant and wellness professional with over 10 years of experience in outpatient, inpatient, skilled nursing settings. She entered the Physical Therapy field leveraging her background in corporate, information technology and entrepreneurialism. Combined, these aid in complex problem solving and performance in the business and application of physical therapy. Her special interests include neurological rehab, aging in place, leadership strategies and community development with an arts emphasis. These are supported by an Applied Associate degree in Physical Therapy Assistant, Master of Science in Kinesiology with a dual emphasis in Corrective Exercise & Orthopedic Rehabilitation and Adaptive Sports, and currently completing her Doctor of Health Science in Education. Specialty certifications in Stroke Recovery & Rehab (PESI), Pilates-based Education for Multiple Sclerosis, Vestibular Rehabilitation Therapy and Concussion Management certifications (AIB-VR/CON), Certified Aging in Place (CAPS) and Executive/Organizational Coaching (CaPP). She endeavors to further the advancement and objectives of the APTA in a significant and intentional way.
