

Razeena Umrani PT, DPT

I am an Acute Care Residency Graduate from Houston Methodist Hospital and received my Doctorate in Physical Therapy from Washington University School of Medicine in St. Louis. I work in acute care in Kansas City, where I am an active member of committees in my Rehab Department to improve the standard of care and access to quality care. These committees include Patient Education, Service, Quality, and Leadership and Special Interest Groups (SIG): Amputee, ICU, CVA and Pelvic Floor. I serve as Co-chair of the Amputee SIG and Publisher of the Patient Education Committee. I have always been passionate about education, as demonstrated by my volunteer work since university. As a DPT student, I frequently guest lectured at local high schools in urban districts and after graduation, was invited to educate Master of Physical Therapy student in Mekelle, Ethiopia. In my professional career, I mentor students from my alma maters, am a lab assistant, preceptor and credentialed clinical instructor to DPT students at my current workplace.
